

## Jellyfish & Plastic Bag Wall

This wall with its remotely sited ADJ water dapple light creates a dynamic other - worldly effect but has a very hard hitting message. The jellyfish are made with platinum food safe silicone and have embedded optic fibres within. They are also slightly flourescent once all light is off.

These are joined by a random plastic bag to highlight the plastic in the oceans. The message is “Can you tell the difference ? A turtle can not.” The board is 2.4 x 1.2 meters and comes with its own optics box and ADJ water dapple light (to be sited seperately for best effect)

Exhibition artwork price. Oceanic exhibition by Scott Gleed Feb - Mar 2018

**£ 2,980.00** (delivery not included) No VAT

One off Ex Oceanic Exhibition Price.

This unit can be used in dead areas of the attraction or as a centre piece. The optics box has a remote control so colours can be set to one colour or a mutiple of colours.

Walls can be made to your specification and colours. There is an option for different quality back boards.

This one is marine ply matt finish. Other options are:

Pre coloured Valchromat wood

Du pont Corian
